# SOCIAL MEDIA POST

## APPROACH | UNDERSTAND | TARGET | SOLVE

### STEP 1

Understand the problem in-depth with an open mindset.

### STEP 2

Research on the problem so as to understand the WHO/WHAT/WHYs of the root cause.

### STEP 3

Talk it out with the team first. Discussions with the team are essential as long as they are followed by hardcore execution. Just keep in mind one golden rule  
Less Talk | More Work

### STEP 4

Follow-ups are nerve-racking, do not give up! Even if it means making 17 calls a day for the same solution.

### STEP 5

Dot it!  
Deal with the consequences and Learn.

“Mindset is everything when it comes to problem solving”  
Kirtan Patel
